Specialist AI Series: Solar 4G Multi-Vision PTZ Camera with Hybrid Zoom

Deliver AI surveillance to remote sites without power or hardwired network access using the standalone Multi-Vision PTZ camera from VIP Vision. It features a built-in 4G modem, monocrystalline solar panel and lithium battery. The camera combines a fixed turret for site overview with a Hybrid Zoom PTZ dome that automatically tracks people and vehicles. When detection events occur, it activates an LED spotlight and siren to deter intruders.

- 3.0MP@15fps 2.8mm wide angle overview camera
- 3.0MP@15fps PTZ dome with Hybrid Zoom - twin cameras switch focal lengths to zoom on subjects during AI auto-tracking of people & vehicles
- Activates LED & siren in response to AI detection

- 24/7 surveillance powered by 8W integrated solar panel and built-in 65Wh lithium battery
- Always-On Video provides continuous video recording at 1fps with low power consumption; AI wakes camera on event detection & boosts image capture to 15fps
